Following is our quotation for the supply of Pyramidal RF absorbing material:

| Grade | Description | Quantity | Unit Price | Subtotal |
|---|--|-----------|---------------------------|----------------------|
| SPT-320 | Pyramidal RF absorber Sheet size: 50 cm x 50 cm x 32 cm RF Absorber will be supplied with Velcro loop backing. (3 x 100mm strips) | (8 Units) | \$200 + GST (Per Unit) | \$1,600 + GST |
| Handling, Packaging and Shipping EAIT Delivery Point Bld 46 R 131 / Liveris Building Staff House Road The University of Queensland | | 1 | \$250 + GST | \$250 + GST |

SPT-320 Pyramidal Absorber

| Grade | Performance versus Frequency | | | | | | | | |
|---------|------------------------------|-----|-----|-----|----|----|----|----|----|
| | 0.2 | 0.3 | 0.5 | 1.5 | 3 | 5 | 10 | 15 | 30 |
| SPT-320 | - | - | 20 | 35 | 40 | 45 | 45 | 45 | 45 |

Prices quoted are valid for a period of 30 days and are GST exclusive.

Best Regards,

Jim Tsesmelis
(*Shielding Division Manager*)

"We strive to provide the most comprehensive and cost effective solution to your EMC compliance needs, whilst maintaining a high standard of service. If you obtain a lower quotation for an equivalent service, please contact us to discuss this matter further."

Terms and Conditions

The following Terms and Conditions govern the services provided by Compliance Engineering.

GENERAL

Compliance Engineering operates a compliance testing laboratory for electromagnetic compatibility and also provides the following services: Consultancy, Report Assessments, Implementation of Modifications to achieve compliance, Interference Investigations, EMC Transducer Calibrations and Provision of EMC Test Equipment, EMC Components and RF Shielded Enclosures.

QUOTATIONS

All quotations provided by Compliance Engineering are binding for a period of 30 days and are given in Australian dollars (AUD) unless otherwise stated. All quoted fees and charges are exclusive of any taxes, duties, fees or other government levies or charges.

BOOKING TIMES/DATES

Dates tentatively reserved for testing shall only become binding once a purchase order has been supplied and the method of payment has been approved.

LATE CANCELLATIONS

If a test date is confirmed by Compliance Engineering and the booking is not adhered to by the client without reasonable cancellation notice, a penalty fee may be imposed for lost time and/or overhead costs.

DELIVERY AND RETURN OF GOODS

All equipment delivered to and shipped from Compliance Engineering premises is at the expense and risk of the Client. Compliance Engineering shall not be held responsible for the delay in the provision of services caused by late arrival, faulty, non-compliant or defective equipment, or due to inadequate instructions for use of the equipment. At the conclusion of testing the client is responsible for the prompt removal of their equipment from Compliance Engineering premises. Clients requiring Compliance Engineering staff to assist in the packaging and or shipment of equipment on behalf of the client do so at the risk and expense of the client. Equipment will be available for collection during Compliance Engineering normal business hours. Compliance Engineering may offer to arrange pick up and or delivery of client's equipment with the client bearing responsibility for the additional cost and risk associated. All equipment not collected within 30 days of the client being notified of its availability for collection will be held at Compliance Engineering at the sole risk of the client.

PAYMENT & CHARGES

A firm price may be agreed upon based on information provided by the client prior to the contract. If the requirements increase due to extended time involved in monitoring of equipment performance, slow or intermittent functioning, faulty or incomplete test sample or as a result of increased requirements; The firm price shall be suitably adjusted to reflect the revised requirements. Unless an account has been activated with Compliance Engineering (and is free from arrears), test reports or results of compliance measurements may be withheld until payment of fees have been made. In the case where ongoing testing or certification cannot proceed due to client delays, an invoice may be forwarded for work completed to date. Prices quoted do not allow time for modifications and retesting due to non-compliance of products. If, at the express wish of the client, services are made available outside normal business hours, a surcharge may apply over and above the quoted price. Unless otherwise advised, the client will make payment promptly and no later than 30 days from the date of invoice. Interest may be charged on overdue payments at a rate 1.5% per month, calculated from the due date until payment is made in full. The client shall pay all debt recovery costs including all legal, administration and debt collection costs. A minimum charge equivalent to 2 hours of testing time applies to all work. In the case of very expensive or protracted orders for service, Compliance Engineering may require reasonable advance payment or progress payments for completed work.

REPORTS & COMPLIANCE CERTIFICATE

Results held within the test report or certificate relate only to the sample of equipment tested. Compliance Engineering takes no responsibility for liabilities arising from equipment being varied from the test sample originally supplied by the client. Compliance Engineering, also cannot be relied on to provide proof of compliance or non-compliance if the sample differs to the original test sample, whether that is component layout, physical housing, performance, materials, firmware, software or any other form of modification.

DAMAGED OR DESTROYED EQUIPMENT

The client acknowledges that the services provided at Compliance Engineering may damage or destroy the equipment under test. In such circumstances, the client agrees to hold Compliance Engineering free of any liability against the damage to the equipment either accidentally or intentionally while the service is being provided.

PROPRIETARY RIGHTS / CONFIDENTIALITY AND SECRECY

Compliance Engineering shall retain all proprietary rights, copyright and joint copyrights relating to processes, documentation, programs, calculations, other descriptions, etc. developed by Compliance Engineering. The client may employ the results achieved under the order only for the purposes for which they are intended by agreement.
